

THE THINKING ENVIRONMENT[®] FOUNDATION COURSE

A two-day intensive course that equips you with the skills to transform interactions and generate superb connection, thinking & action. During this time of VUCA (Volatility, Uncertainty, Complexity and Ambiguity) the one unassailable access we have is how we treat one another as we navigate this unprecedented time of challenges which seem to defy solution.

Some of the key benefits...

“The quality of everything we do depends on the quality of the thinking we do first. The quality of our thinking depends on the way we treat each other while we are thinking.”

NANCY KLINE

Give people a structure to generate better ideas, solutions and decisions

Make diversity, inclusion, collaboration and creativity a reality

Have greater quality, productive working relationships

Create an environment where people feel valued and as a result will do their best work

The results from some of our Clients...

A saving of 62%
of meeting time

A creative agency
improved its
industry ranking
by 32% in four
months

A pharmaceutical
company achieved a
44% reduction
in their decision
making costs

A research team
saved a month's
worth of work in a 30
minute discussion

“One of the trainings with the best
ROI I have attended. Easy to
implement and immediate results.”

CONSULTANT, EGON ZEHNDER

Your Accredited Facilitator

Candice has worked for over two decades across Australia, Asia and Africa to help bring out the innate humanity of individuals and organizations, to profoundly impact the quality of results. Driven by a need to shift the quality of human interaction at an individual, group and systemic level, Candice trained with Nancy Kline, the founder of the Thinking Environment methodology, and is a Time To Think Faculty member. She has worked in private and public sectors, ranging from financial services and banking to construction, petrochemicals, customer engagement, academia and government.
